## **Preface**

The purpose of this book was to enable students to apply language structures and conventions in relation to their studies in the field of the economic and management sciences.

Students accredited with this module will be able to adapt more effectively to the challenges of the academic environment when studying accountancy, business management and economics, through the development of their language learning skills and strategies.

Therefore, in this book, I tried to collect all the modules that I taught them in the field of economics and management during my academic career in university.

This book has been divided into three main parts :

- ☆ **First Part : Business Research Methods.**
- ☆ **Second Part : Lectures in economic.**
- ☆ **Third Part : Lectures in management.**

<b>Contents</b>	<b>Pages</b>
<b>Preface</b>	<b>1</b>
<b>First Part : Business Research Methods</b>	
<input checked="" type="checkbox"/> Introduction of Business Research.	<b>3</b>
